I could gain an advantage in trade competition through this submission

No

The specific provisions of the proposed Plan Change that my submission relates to are as follows

Our property would be rezoned to fully general residential

My submission is that

We oppose the proposal in so far as it relates to our property. We argue that we are more appropriately zoned rural lifestyle. This is because of the land use, amenity, natural character and services associated with our property. In addition our neighbours with whom we share a right of way are to continue to be zoned rural lifestyle as are a number of properties adjacent to us. We cannot see any differences between ours and theirs which would justify a different zoning. We are contiguous with the same native forest they are which eventually becomes Kaitoke Regional Park.

I seek the following decision from the local authority

To zone 34a Kenneth Gillies Way as rural lifestyle.
