I could gain an advantage in trade competition through this submission

No

The specific provisions of the proposed Plan Change that my submission relates to are as follows

In favor

My submission is that

Large rural blocks are uneconomic and often planted in introduced pinus radiata. Subdivision assists the housing shortage, provides a better lifestyle choice for manu families, increases native plant and animal populations. All new house's in subdivisions have a garden most will plant some if not alot of natives, this encourages animal and bird life. All will shop locally, use local schools and support local community events. This builds a community Im in favor of this subdivision. Upper hutt needs all the.help it an to ensure the ongoing sustainability of business

I seek the following decision from the local authority

Grant in favour
