I am happy to see further subdivisions in the valley so more people can live a rural lifestyle, however I do not believe there has been proper consultations and I also have concerns that the proposed size of the properties would reduce the "rural lifestyle" feel.

**I do not stand to gain commercial advantage from my submission
I am seeking the following relief, that the council withdraws and properly consults on these changes and considers the impacts on the current residents and direct neighbours.**

Kind Regards,

Helen Masters
