I could gain an advantage in trade competition through this submission

No

My submission is that

The council has failed to consult any of the residents in the area regarding this plan change. This is an area where kids walk to and home from school. It's obvious the infrastructure round these areas is not built to handle an abundance of more vehicles let alone earthwork and construction vehicles. As far as I'm concerned there has been little to no information regarding PC50 and especially information that we are expected to understand.

Please indicate whether you wish to be heard in support of your submission (tick appropriate box)

I do not wish to be heard in support of my submission.

please indicate whether you wish to make a joint case at the hearing if others make a similar submission (tick appropriate box)

I do not wish to make a joint case.

Thanks for the reply.

Sorry it is a little unclear after reading it myself.

As with 99% of this community I am completely against Plan Change 50.

Thanks
Simon

Good afternoon Simon,

Thank you for your submission. We're in the process of preparing our summary of submissions for Plan Change 50, however based on our reading of your submission we are unclear on the decision you would like Council to make.

Please send a reply with what you would like Council to do in regards to the plan change and we can add this into your submission. This could be related to the plan change as a whole or it could be something specific. If you can please send this through before next Friday 23rd February that would be much appreciated.

I have attached your original submission as reference. Please let us know if you have any questions.

Thank you
Hayley
